

The WA Excel Cup Inc. receives support from sponsors and associated companies which benefit the promotion, management and running of the series. In order to recognize and acknowledge this support, all competitor members within the class are required to display "Sponsorship Decals" on their vehicles as documented below.

All sponsorship decals shall be applied in addition to those required by the Association's General Competition Rules (e.g. racing numbers) and the MOTORSPORT AUSTRALIA Manual (e.g. competitor identification and safety decals).

It is important to note the Association sponsorship decals must be on the vehicle in the correct location and unmodified, aside from any minor fitment requirements, to be eligible to receive points in the WA Excel Cup Inc. Championship.

Decals to be applied to Competitor Member Vehicles for WA Excel Cup Race Series

(As documented in sample diagrams on Page 2 of this document.)

1. Windscreen Banner promoting the Series and our series Sponsor (Sponsor 1);
2. Front and Rear Number Plate Decals for assigned Sponsor (Sponsor 2);
3. Website provider (Hyper IT) Decal applied to upper edge of rear window, aligned centrally to the vehicle; and
4. Two (2) x MOTORSPORT AUSTRALIA stickers (i.e. 1 each side, to the upper rear corner of each front guard, or in vicinity of the race number).

Allowance for Control Suspension Supplier Decal

As per the national supply contract, from the beginning of 2021 the Control Suspension supplier will provide decals when a purchase of a new control suspension is made. These decals shall be applied to the front guards of the vehicle.

Supply of Decals

Typically decals shall be distributed via the Association's Secretary. Please direct all enquiries accordingly.

1 x Windscreen Banner and 2 x number plate decals as supplied by Sponsors 1 (i.e. primary sponsor) and 2 (i.e. secondary sponsor) will be provided to competitor members. 1x Hyper IT decal will also be provided.

MOTORSPORT AUSTRALIA decals are to be requested from MOTORSPORT AUSTRALIA directly, not the Association's Secretary. MOTORSPORT AUSTRALIA license holders can request these decals be posted to them.

Allowance for Future Sponsorship Decals

The association may from time to time secure additional category sponsors and may therefore require additional sponsorship decals to be applied to competitor member vehicles. To allow this to occur sufficient space should be left in the following locations:

- i) below the MOTORSPORT AUSTRALIA logo on the Front Guards;
- ii) above the Race Numbers on the side doors below the window; and
- iii) the upper portion of the rear window either side of existing Hyper IT Decal.

The locations described above are shown by the shaded areas in the diagrams provided on page 2.

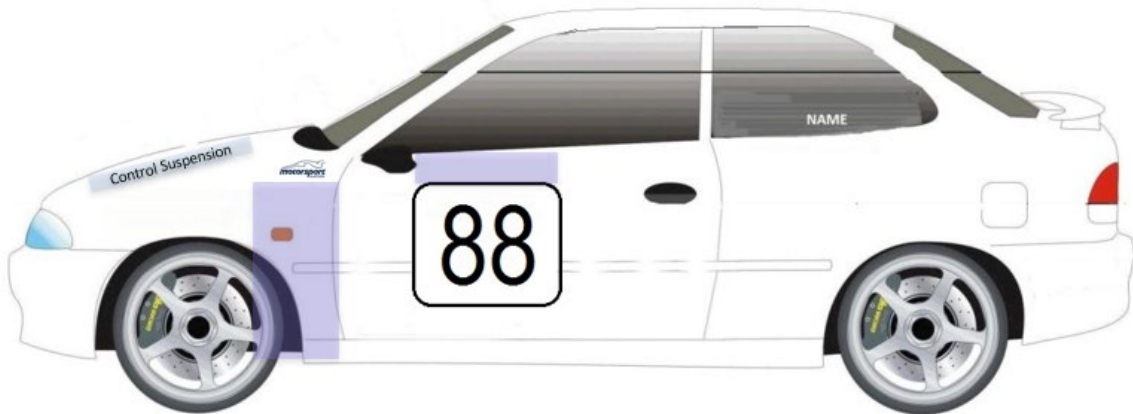

Should the Association require these locations to be used for additional sponsorship decals, any existing decals competitor members have in these locations shall be removed to allow application of the category sponsorship decals.

Decals required for special events or non-WA Excel Cup championship races

From time to time Competitors may race in interstate or other non-WA Excel Cup events where they may be required to display alternative windscreen banners or decals. It is the Competitor's responsibility to return their vehicle to a condition compliant with the WA Excel Cup requirements prior to re-entering the vehicle in WA Excel Cup competition.
