

The WA Excel Cup Inc. (i.e. the Association) receives support from sponsors and associated companies which benefit the promotion, management and running of the series. In order to recognize and acknowledge this support, all competitors within the class are required to display "Sponsorship Decals" on their vehicles as documented below.

Sponsorship decals shall be applied in accordance with, and in addition to, all decals required by the Association's General Competition Rules (e.g. racing numbers) and the Motorsport Australia Manual – 'Schedule K – Markings on Automobiles' (e.g. competitor identification and safety decals).

Decals must be affixed to all competitor vehicles in the correct location and unmodified, aside from any minor fitment requirements, to be eligible to receive points in the WA Excel Cup Inc. Championship, WA Sporting Car Club Championship and Motorsport Australia State Championship.

### **Sponsorship Decals**

The following sponsorship decals must be affixed to all competitor vehicles:

1. Front Windscreen Banner - Primary Sponsor;
2. Front and Rear Number Plate Decals - Level 1 Associate Sponsor;
3. Rear Window Banner – Level 2 Associate Sponsor;
4. Roof above driver and passenger side doors and windows – Level 3 Associate Sponsors; and
5. Front guards/quarter panels – Level 3 Associate Sponsors.

See pages 2 and 3 of this document for photographs illustrating placement details.

### **Control Suspension Supplier Decal**

As per the national supply contract with Supashock, competitors will receive a set of decals/stickers when they purchase a new control suspension package. These decals must be affixed to the front guards/quarter panels of vehicles above the wheel and tyre.

### **Motorsport Australia Decal**

Motorsport Australia requires all competitors to display a Motorsport Australia logo sticker positioned adjacent to each side competition race number (see Motorsport Australia Manual – 'Schedule K – Markings on Automobiles').

### **Supply of Decals**

Category sponsor decals are distributed by the Association's Secretary. Please direct all enquiries accordingly. Motorsport Australia logo stickers are available from Motorsport Australia.

### **Allowance for Future Sponsorship Decals**

The association may from time to time secure additional category sponsors and may therefore require additional sponsorship decals to be applied to competitors' vehicles at any time throughout the year. To allow this to occur sufficient space should be left in the following locations:

- i) The rear portion of the front guards/quarter panels; and
- ii) Above the competition race number on side doors and below the window.

Should the Association require these locations to be used for additional sponsorship decals, any existing decals in these locations shall be removed.

### **Decals required for special events or non-WA Excel Cup championship races**

From time to time Competitors may race in interstate or other non-WA Excel Cup events where they may be required to display alternative windscreen banners or decals. It is the Competitor's responsibility to return their vehicle to a condition compliant with the WA Excel Cup requirements prior to re-entering the vehicle in WA Excel Cup competition.

### Front Windscreen Banner - Primary Sponsor

### Front & Rear Number Plate Decals - Level 1 Associate Sponsor

**Rear Window Banner – Level 2 Associate Sponsor**

**Roof above driver and passenger side doors and windows – Level 3 Associate Sponsors**

**Front guards/quarter panels – Level 3 Associate Sponsors.**
